ABOUT US

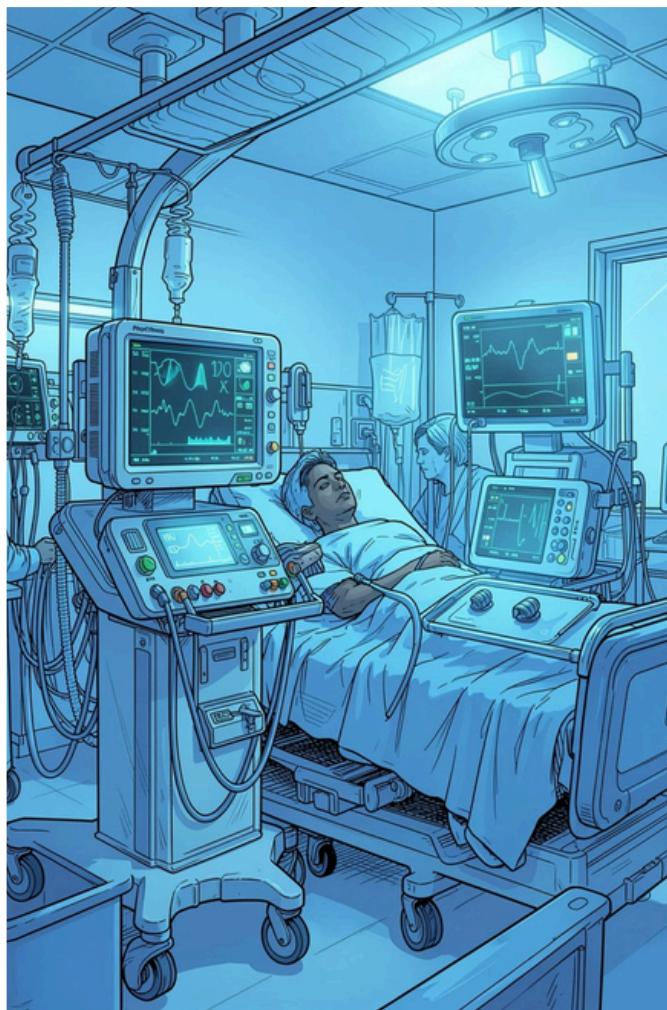

Brief History of Modi Group:

We would like to introduce ourselves as a 65 year old; ISO 9001:2015 certified Steel Manufacturing Company. We have manufacturing facilities in North India and Corporate Office in New Delhi (India). With a huge experience in steel making, coupled with our values, Customer Delight is our 'Way of Life'...

We have a team strength of approx. 300.

We have been able to maintain pole position (mostly no.1 for most of the period in our product category). In 2021, we incorporated Modi Global Health as Strategic Entry into Indian Medical Devices.

“Building the Future of Healthcare”

About Modi Global Health

Modi Global Health is a new venture setup by Modi Group. Taking forward our ethos of commitment and spirit of innovation, we have ventured into medical devices business.

Driven by our commitment to excellence and innovation, we've embarked on a new path in the medical device industry. The primary objective of Modi Global Health is to offer world class medical devices at affordable prices to the entire nation.

Vision

To be amongst Top 3, in the medical devices we manufacture

Mission

The primary objective of Modi Global Health is to offer world class medical devices at affordable prices to the entire country. We aim to serve the often ignored Indian hinterland.

OUR PARTNERS

Ardo Medical AG:

ARDO Medical AG is a Swiss company specializing in high-quality breastfeeding support products and medical equipment. As our trusted business partner, they bring decades of expertise in developing premium electric breast pumps, manual pumps, and clinical suction technology.

Sutumed Corporation

Sutumed Corporation is a premier U.S.-based medical device manufacturer specializing in high-quality surgical sutures and innovative wound closure solutions. As our valued business partner, Sutumed Corp delivers cost-effective, dependable, and internationally compliant products designed to elevate surgical precision and improve patient healing outcomes worldwide.

Miconvey Technologies Ltd.

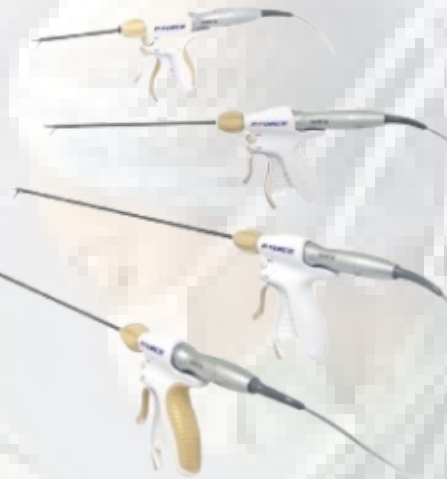

Miconvey Technologies Co., Ltd. is a leading medical tech enterprise specializing in advanced, minimally invasive surgical instruments. As our strategic business partner, they provide cutting-edge solutions that enhance surgical precision, improve clinical outcomes, and optimize patient recovery across global healthcare networks.

PRODUCT PORTFOLIO

SURGICAL

- Ultrasonic Surgical System
- Suction Pumps
- Sutures (Coming Soon)

Ultrasonic Surgical System

Miconvey ultrasonic surgical system adopts Self-adaptive tissue technology, which enables stronger and more reliable sealing in a wide range of vessels up to 5mm.

The generator K500 can simultaneously monitor signals from the shears and adjust energy output according to different tissues.

The ultrasonic scalpel allows minimal eschar and desiccation on the tissue, resulting in less tissue sticking compared with electrosurgery. It can effectively reduce the eschar and the bleeding risk after operation.

The ultrasonic surgical system is mainly used in thoracic surgery, gastrointestinal surgery, urology surgery, minimally invasive gynecologic surgery, hepatobiliary surgery, etc.

Advantages of Ultrasonic Generator K-500

Handpiece

- Handpiece without time of use restriction
- The cable of handpiece is detachable with metal connector. It can be removed (easy to clean and sterilize)
- The chip inside the handpiece could optimize the output power
- Complete cutting and coagulation at the same time
- Reliably sealing vessels up to 5mm in diameter
- No current through patient body
- The smallest eschar and desiccation for the tissue
- Precise cutting with minimal thermal damage Less smoke
- Intelligent chip control more excellent power output
- Self testing system
- Auditory feedback
- Multifunction to reduce the replacement of different instruments
- More advanced computer algorithms
- Legible system interface

Medical Suction

Ardo Master Aspirator

The whisper-quiet high-performance pump
With the Ardo Master surgical suction pump, you have selected the high-performance version of the Ardo aspirators. Ardo Master combines high functionality and ease of operation with hygienic safety and Swiss precision.

At a glance

- Ideal for all applications
- The double piston system ensures that the vacuum is quickly generated and the suction is reliably maintained
- Aspirator that is so quiet and low vibration that you barely know it's there
- Almost frictionless glass cylinder/graphite piston system that is self-lubricating, maintenance free, very durable and practically silent
- Manufactured from premium components with precision craftsmanship in Switzerland
- Ardo Master is optionally available with a foot switch to switch the suction pump on and off

Examples of application

- Surgery
- Orthopaedics
- Oral & maxillofacial surgery
- Dentistry
- Veterinary medicine
- General suction of secretions

Medical Suction

Ardo Senator Aspirator Vacuum Assisted Delivery Pump

Reliable, powerful and quiet

The Ardo Senator surgical aspirator is the right choice for all applications. Ardo Senator is easy to use, reliably provides constant suction and provides hygienic safety and Swiss precision with a 5 year warranty.

At a glance

- Ideal for all applications
- The double piston system ensures that the vacuum is quickly generated and the suction is reliably maintained
- Aspirator that is so quiet and low vibration that you barely know it's there
- Almost frictionless glass cylinder/graphite piston system that is self-lubricating, maintenance free, very durable and practically silent

MOTHER & CHILD

BREAST PUMPS

Hospital Grade Breast Pumps

ardo carum

Breastpump for hospitals and hire

Vacuum and cycle can be adjusted separately

Closed system with hygiene barrier

Sensitive Programme for sore and sensitive nipples

BPA & BPS free

With Ardo Carum we have set important benchmarks and thus provide a professional hospital-grade breastpump that satisfies the most stringent demands of mothers and hospital staff. The new hospital-grade breastpump also impresses with additional useful and valuable functions.

ardo bellis

The robust construction and the userfriendly operation make Ardo Bellis the ideal rental pump at home and on the go.

The integrated bottle holder is very practical and provides a stable hold for the milk bottles. The touch display is easy to use, very discreet in the night and well visible in daylight. Thanks to the smooth surface and the rounded edges Ardo Bellis is simple and quick to clean.

Automatic Power Pumping

Memory Plus

Integrated battery

Vacuum and cycle can be adjusted separately

Closed system

2-phase breastpump

BREAST PUMPS

Personal Use Breast Pumps

ardo melia

Wearable electric breast pumps

The Ardo Melia is a portable electric breast pump that allows you to pump hands-free, comfortably, and efficiently.

No cables, no tubes – quiet, discreet, and uncomplicated. The pumps are worn directly in the bra, allowing you to pump anywhere and anytime. Enjoy the simplicity.

ardo alyssa hands-free

Portable & hands-free pump

Ardo Alyssa Hands-Free is a high-quality portable electric breast pump. The soft collectors are worn directly in the bra, allowing for comfortable, hands-free expression, enabling you to attend to other tasks while pumping. Compact and equipped with a strap, it is easily transportable for optimal mobility during use.

ardo alyssa double

Double electric breastpump

The new Ardo Alyssa is a compact, easy-to-use and innovative breastpump. The automatic power pumping programme and the integrated Memory Plus function for saving your pumping history provide optimum support for you and your needs.

ardo calypso

Electric breastpump

With the compact Ardo Calypso breastpump for personal use, we have set new benchmarks for individual adaptability of a breastpump to meet the needs of the mother. Our breastpumps are quiet and gentle but still powerful, which makes them perfectly suited for discreet expressing at home or on the go.

ACCESSORIES

ardo care compresses

Breast compresses

For natural care and support in the treatment of sore, irritated or painful nipples during breastfeeding.

ardo tulips

Nipple shields

BPA & BPS free

The Tulips nipple shields are easy to use and help both full-term and premature babies experiencing sucking problems to grip the breast. In addition, they make it easier for mums with flat or inverted nipples to get their baby to latch on and can protect sore nipples during breastfeeding.

ardo day & night pads

Single-use breast pads

The Day & Night Pads provide the best security when breastfeeding and feel comfortable against the skin over the whole breast. The combination of maximum protection and a comfortable feeling gives mothers just what they need during the demanding breastfeeding period.

ardo bottle set

Bottles for breast milk

The practical sealable milk bottles made of high-quality BPA-free polypropylene for expressing and hygienic storage of breast milk.

BPA & BPS free
